

WHEEL RIM POPPER

AutoDrain

SEPARATES SCRAP TIRES FROM STEEL AND ALLOY RIMS IN SECONDS

Complete separation in approximately 15 seconds, processing *up to* 240 wheels per hour

8-18" Rims (Steel/Alloy/Light Commercial/Low Profile/4x4)

Rims left in stackable condition

Reduces operator fatigue & risk of injury

Easily moved with a forklift truck

The compact design allows the machine to be located in the Depollution bay to maximize efficiency
